Donnelly Law

Dear David

In response to your request please find attached a report on the Georgian Bay Geopark activities in relation to the opposition claims. In the attached report we provide extensive factual detail that directly contradicts or materially undermines the most serious claims on thegbg.ca.

The Geopark's Indigenous Relations team have developed an engagement pathway that explains how the initiative intends to engage with rights-holding First Nations and identified Indigenous communities in a more respectful, organized, and transparent way. They have now initiated a phased comprehensive Indigenous engagement process around the Bay.

Sincerely

Mike Robbins

Chair, Georgian Bay Geopark
